

# CleanSafe<sup>®</sup>

## Product line differences

To ensure optimal usage of the various products in the CleanSafe<sup>®</sup> product line we like to emphasize that the products are:

### IDENTICAL but DIFFERENT

The following table highlights some of CleanSafe<sup>®</sup>'s characteristics and differences in the current products

<b>Characteristic</b>	<b>TFT/ LCD / Plasma</b>	<b>Multimedia DVD</b>
Cleans	+++	++
Restores	+	+++
Protects	+++	++
Static removal	+++	++
Static protection	++	++
Optical nano-layer	+++	+
Acoustical nano-layer		+++
Low conductivity	+++	+
UV protection	+	+++
Optimal pH	+++	+++
Non-toxic	+++	+++
Low hardness	++	++

In principle you can use both products for both applications, it is still a lot better than using traditional toxic cleaners and solvents BUT:

**For optimal SAFETY and optimal PERFORMANCE  
use DEDICATED products**
