and Information Technology

Panasonic ITPD (information technology department)
Laptops – Computers etc.

TEST CleanSafe® *(Panasonic report attached)*

SUMMARY

**CleanSafe® tested on LCD, keyboard and cabinet
Leave CleanSafe® in 85°C, 90°humidity for 120 hours
Scrub LCD, keyboard and cabinet wit 1kg pressure – 1.000 x
Detail test with sticky tape**

Conclusion Panasonic:

**“We conclude washing CF-18 (a laptop) with CleanSafe® don’t
cause functional disease in normal use”**

Comments CleanSafe® HQ:

**Attached very heavy endurance test again demonstrates the
superb qualities of CleanSafe® regarding:**

- **Low conductivity (with regular fluid): no short cuts!**
- **Softness / Ph Neutral / pure liquid: no scratches or damages!**
 - **The qualities of our custom made sachets!**
 - **LONG TERM USE / SAFETY**
